Year 11 Term 1 Parental Report and Mock Exam Results

Dear Parent / Carer,

As the first term at Astrea Academy Woodfields draws to a close, I would like to thank you and the students for embracing the changes we are making in order to raise standards. Today we have posted your son/daughters most recent Teacher Progress Report. This interim report provides an overview of the actual Mock Exam results your son/daughter achieved in the November Mock Exam series in each of their subjects. Further to this, the report also summarises their current cumulative attendance, classroom rewards and behaviour points and current GCSE Targets and Teacher Predictions.

If you have any questions and/or concerns you wish to discuss could I please draw your attention to the Y11 parents evening on the Academy calendar on the 12th February. However, should you wish to discuss anything before this date please do not hesitate to contact the Academy as soon as possible.

May I please take this opportunity to remind you that when students return to the Academy on 7th January 2019 there are only 15 school weeks until their start of the main examination period. With this in mind it is an expectation that all Year 11 students attend additional lessons and revision sessions between 3 and 4pm every day from January onwards. We have also invested in a dedicated revision centre exclusively for year 11 students which we will be opening to students in January and will be open lunchtime and afterschool every day.

We wish all our students, their families and our staff a very happy festive season and hope you have a lovely holiday. I look forward to the amazing things our students will achieve during 2019.

Kind regards,

Alistair Hartley
Assistant Principal
