Exceptional 6th Form Results 2019

It is a record-breaking year at Astrea Academy Woodfields for our 6th Form students with a 100% pass rate, exceptional results and all students securing their first choice University or alternative destination! Congratulations to all!

Students at Astrea Academy Woodfields Sixth Form currently study one of two Level 3 approved sport qualifications; BTEC National Extended Diploma in Sports or BTEC National Extended Diploma Sports and Exercise Science.

Students studying on the BTEC National Extended Diploma Sports and Exercise Science saw an incredible average grade that exceeded that required for a triple Distinction, which is the **equivalent to three grade A's at A-Level and attracts 144 UCAS points!**

Students studying on the BTEC National Extended Diploma achieved an average grade of Distinction, Distinction, Merit, which is the **equivalent to grades A, A, C in three A-Level's and attracts 128 UCAS points!**

Special recognition needs to go to students H. Dunbar and T. Grimes who both achieved an incredible triple Distinction*, the highest possible grades available and equivalent to A* in three A-Level.

100% of students leaving our year 13 cohort this year achieved their first choice at either the University or an alternative destination of their choice, with students successful both in the UK and abroad. **Two students have been accepted onto scholarships, with one student going to Ohio, USA.**

We wish all our students the best for their future and look forward to the new cohort starting with us in September.

Astrea Academy Woodfields Sixth Form still has limited places available for September 2019. If you wish to apply for a place please contact Ms J. Bain at the Academy on 01302 312140.
