**Principal: Mr David Scales**

Dear Parents/Carers,

### **BTEC Construction Course Update**

I hope this letter finds you well. I am writing to inform you of an important update regarding the BTEC Construction course at Astrea Academy Woodfields.

After careful consideration and review, we regret to inform you that we will no longer be able to run the BTEC Construction course for the upcoming academic year. This decision has not been made lightly, and we understand that it may be disappointing news for your child and your family.

The decision to discontinue the course was influenced by curriculum updates. Unfortunately, this has made it unfeasible to continue offering the course at this time.

We are committed to supporting your child's education and future career aspirations. As such, we will be offering an alternative GCSE pathway for scholars to ensure they are able to secure their post 16 destination of choice. Scholars will be studying GCSE Statistics, which sits alongside GCSE Mathematics. The course focuses on understanding and applying mathematical concepts and provides an approved route to sixth form or college.

Our career counselling team is available to assist your child discussing post 16 options in the upcoming weeks. We encourage you to discuss these options with your child and reach out to our team if you have any questions or need further guidance. They are available on [lindsey.tugby-andrew@astreawoodfields.org](mailto:lindsey.tugby-andrew@astreawoodfields.org). We would like to take the opportunity to assure you that this change will not affect your child's opportunity to follow a construction based pathway when they leave Astrea Woodfields.

We apologise for any inconvenience this may cause and appreciate your understanding and support as we work to provide the best possible educational experience for all our scholars.

If you have any questions or would like to discuss your child's options further, please do not hesitate to contact me.

Thank you for your continued support.

Yours sincerely,

Alistair Hartley

Senior Assistant Principal
