Six Strategies for Effective Learning	
SPACED PRACTICE	Space out your studying over time.
RETRIEVAL PRACTICE	Practice bringing information to mind.
ELABORATION	Explain and describe ideas with many details.
INTERLEAVING	Switch between ideas while you study.
CONCRETE EXAMPLES	Use specific examples to understand abstract ideas.
DUAL CODING	Combine words and visuals.

Countdown to GCSEs

Preparing for exams is a journey, and like any journey, it's important to take it one step at a time. It's natural to feel a little overwhelmed when looking ahead at everything you need to do, but breaking your revision into small, manageable tasks will make the process much more effective and less stressful.

This booklet has been carefully designed to guide you through that process, setting out exactly what you need to focus on each step of the way. By following this structured plan, you'll build your knowledge gradually, reinforce key concepts, and develop the skills needed to perform at your best.

Success in exams doesn't come from last-minute cramming—it comes from steady, consistent effort. Every piece of homework, every exam question you complete, and every bit of revision you do now will make a real difference when you sit your exams.

Think of your revision as training: just like an athlete preparing for a big competition, the work you put in now will prepare you to perform under pressure. Even on days when motivation is low, pushing yourself to complete the tasks in this booklet will help you stay on track and build momentum.

Remember, you are not in this alone. Your teachers are here to support you, and if you ever feel unsure or need extra guidance, don't hesitate to ask for help.

The most important thing is to stay focused, stay disciplined, and believe in your ability to improve. Every effort you make now is an investment in your future, and by following this plan step by step, you'll be giving yourself the best possible chance of success. Stay positive, take it one task at a time, and approach your revision with confidence—you've got this!
